This site uses cookies

We use cookies for functional, statistical and marketing purposes. If these files are not locked, you agree to their use and storage in the device's memory. By changing your browser settings, you can independently manage cookies.

Introduction

Transition Technologies-Software Sp. z o.o. (NIP: 5272903279, REGON: 384186978, KRS: 0000800662, company registered in Poland, ul. Pawia 55, 01-030 Warsaw) respects the right to privacy of users of the website www.ttsw.com.pl). This document describes the rules for obtaining and using data obtained from users through the website and company profiles in Social Media. It also informs about the rights of users and methods of their execution.

What are cookies?

Cookies are small pieces of information, sent by the visited website and saved on the end device (computer, laptop, smartphone, etc.) that users use when browsing websites. They usually contain the name of the website from which it comes, the "life expectancy" of the cookie (ie, its lifetime), and a randomly generated unique number used to identify the browser from which the website is connected.

Cookies policy

In connection with sharing the content of the Transition Technologies-Software website, so-called Cookies, i.e. information saved by servers on the user's end device, which servers can read each time they connect to this end device, may also use other technologies with functions similar or identical to Cookies. In this document, information on Cookies also apply to other similar technologies used on our websites. Cookies are IT data, in particular text files, which are stored on the end device of the user of the Transition Technologies-Software website.

The purposes of using cookies:

• Adjusting the content of the website pages to the user's preferences

• Improvements in searching and browsing website content

• Optimization of website use (in particular recognition of the website user's device and appropriate display of the website),

• Creating statistics that help to understand how website users use websites, which allows improving their structure and content

• Maintaining the website user's session (after logging in), thanks to which the user does not have to re-enter the login and password on each subpage of the website,

• Providing users with advertising content more tailored to their interests.

Types of cookies:

There are two basic types of Cookies: current session and persistent. Current session cookies are files temporarily stored on the user's device until they leave the website or close the browser. Persistent files remain on the user's device for a specified period or until deleted by the user. As part of the Transition Technologies-Software website, we can use the following types of Cookies:

• "necessary" Cookies - enabling smooth use of services available as part of the website, e.g. authentication Cookies used for services that require authentication as part of the website; Cookies used to ensure security, e.g. used to detect fraud in the field of authentication on the website; Cookies, enabling the collection of information on the use of website pages,

• "functional" Cookies, enabling the user to remember user-selected settings and personalizing the user interface, e.g. in terms of the language or region of the user's origin, font size, website appearance, etc.,

• "positioning" Cookies, enabling users to provide advertising content more tailored to their interests.

Blocking or disabling Cookies:

In many cases, the software used for browsing websites (web browser) by default allows cookies to be stored on the user's end device. Website users can change Cookie settings at any time. These settings can be changed in particular in such a way as to block the automatic handling of cookies in the web browser's settings or to inform about them every time they are placed in the user's device of the website. Detailed information about the possibilities and ways of handling Cookies are available in the software (web browser) settings. Failure to change the cookie settings means that they will be placed on the user's end device, and thus we will store information on the user's end device and gain access to this information.

Disabling the use of cookies may cause difficulties in the use of some services as part of our website, in particular those requiring login. Disabling the option of accepting cookies does not, however, result in the inability to read or view content posted on the Transition Technologies-Software website.

Cookies can be placed on the end device of the Transition Technologies-Software website user, and then used by advertisers, research companies and multimedia application providers cooperating with the website.

How do you turn off cookies in your browser?

Opera

Firefox

Data collection and use

In accordance with the practice adopted in most websites, we store HTTP queries directed to our server. This means that we know the public IP addresses from which users browse the information content of our website. The viewed resources are identified by URL addresses. Our servers also automatically save data such as: page

request sent by the user, date and time of the request, device data (e.g. hardware model), browser type, browser language, operating system type.

These data are used to ensure the stability and security of websites' work. The collected logs are stored for an indefinite period as evidence used to administer the website and, possibly, for the purposes of explanatory actions conducted by state institutions authorized to do so pursuant to legal provisions.

Social plugins and internal websites and links

The Transition Technologies-Software website uses so-called plugins related to social networking sites: linkedin.com ("LinkedIn"), facebook.com ("Facebook") and instagram.com ("Instagram").

LinkedIn

The purposes and methods of using the data collected by LinkedIn, information on rights and ways of managing settings that give the opportunity to protect your privacy are available in the instructions and statements developed by LinkedIn: www.linkedin.com/legal/privacy-policy

Facebook

The purposes and methods of using the data collected by Facebook, information about the rights and ways of managing settings that give the possibility to protect your privacy are available in the instructions and statements developed by Facebook: https://www.facebook.com/policy.php

Instagram

The purposes and ways of using the data collected by Instagram, information about the rights and ways of managing settings that give the opportunity to protect your privacy are available in the instructions and statements developed by Instagram: https://help.instagram.com/155833707900388

Sometimes we use links to pages and content on our pages that we do not own. Please note that this Privacy and Cookie Policy applies only to actions taken by us and we do not accept responsibility for actions taken by other companies and persons. We recommend that you always read the privacy policy for each website you visit. If the hyperlinks provided by us lead to illegal or custom content, we declare a response (removal of such links) as soon as you become aware of the situation.

Changes to the Privacy Policy

We reserve the right to make changes to the content of this document without prior notice. We recommend that you periodically read the Privacy Policy on the pages you visit, and read the changes before agreeing to them.
